

I understand there is a possibility of LPFM stations replacing the FM translators that my radio station, K-LOVE uses to broadcast their signal. I am a resident of New Mexico and I have been listening and supporting K-LOVE for over four years - even when I lived in Indiana. K-LOVE has helped me during very trying times in my life. Their message of love, faith, and encouragement have saved my life (literally) time after time. If K-LOVE were to be displaced by an LPFM broadcaster, there is no telling what type of message another broadcaster would send. I love my Lord, my family, my country - I want encouragement for myself and my children. I do not want to have them listen to some of the garbage that is currently broadcast on some stations. With K-LOVE, I know that I and my children's "senses" are safe. I do not have to worry about the language used. K-LOVE provides uplifting messages to all of their listeners. They support wholesome family values and this positively impacts communities all across America. Please do not do anything to change the way they are heard across America.

Thank you,

Patrica Sanchez
